# Giving Compassion, Respect, & Independence

# Happier at Home

## Quality Care At Home

Since 2007, Happier At Home has been providing home-based care services to help seniors remain independent in their own home or place of residence.

We thoughtfully match clients with our highly-trained staff who are available from one hour to 24 hours daily.

Happier at Home enhances the quality of life for those we serve and provides peace of mind for their families and loved ones.

# Mediset Packaging

Designed for those managing multiple daily medications, our packaging program delivers a simplified, safe, and convenient prescription experience that ensures a consistent regimen. **No more pill bottles cluttering the cabinet. No more filling pill boxes each week.** With our specialized mediset packaging, we can sort it all for you! We organize your prescriptions by date and time they are to be taken, so you have one less thing to worry about.

Missing even one medication dose can have serious complications. If you or your loved ones would like more information about this program, please reach out to us or stop by the pharmacy.

## Featured Benefits

- Individually labeled packs identify what to take each time and when you should take them.
- Detachable packs let you take your meds on the go for a meal, a day, or more.
- Program includes a comprehensive medication review and worry-free refills.

# Pharmacy Partnerships

Advocacy and awareness of health and medication issues make pharmacists the perfect leaders for home-based care. When communicating with healthcare professionals in hospitals, senior living residences, or outpatient facilities, expert care advocacy benefits all of those we serve.

**Happier At Home is proud  
of our unique, pharmacist-  
owned model.**

### > Peace Of Mind

You have a specialist on your side.

### > Community Connection

Family pharmacies invested in our collective health.

### > Medication Management

Solutions guided by experts.

# About The Owner

Kevin Faris, Owner

Kevin has been deeply involved in the medical profession and entrepreneurship throughout his career. He is a licensed pharmacist and has owned and operated over 20 pharmacies in Nevada, Idaho, California, Alaska, Hawaii, and Washington. He has always taken a patient-centric approach and has gone the

extra mile to deliver health care solutions to better the quality of life of his customers. Kevin's extensive experience includes serving the elderly in Assisted Living Facilities, Skilled Nursing Facilities, and Adult Family Homes, as well as working with the Developmentally Disabled and Hospice Patients.

He and his team have also been instrumental in providing services and creating a personal connection with populations (340B) that have been traditionally underserved. With Happier At Home, Kevin sees another chance to combine his medical acumen and his passion to serve others. The aging population who wish to remain in their homes is expanding very quickly throughout the United States. Kevin chose to start a Happier At Home business because its model of elevated professional care aligns with his personal values. Giving respect, compassion and the chance for seniors to remain independent in their homes is what Kevin believes in, and Happier At Home is the ideal agency that enables him to deliver this to clients.
